Contract Ratified

The Negotiating Committee is please to inform you that the membership has accepted the proposed new collective agreement by a majority of 82.5%. The terms will go into effect immediately.

The Local will be very shortly working with the company to set up the Operations Committee and get it

in place. We hope that this committee can work to find solutions to many of the issues drivers, in particular, raised as concerns.

The negotiating Committee would like to thank the membership for their support through out this process.

Local President Paul Richard said “We did not resolve all of the issues we wanted to. There is a great deal of compromise in this agreement but the members made it clear that they wanted this agreement settled. So that is what we did.”

Thanks to all the members of the negotiating committee who worked hard throughout these tough negotiations.
